

2015  
Full Member

Certificate number: 3

Date of issue: 25/06/2015

The objectives of the Association shall be to support and promote the common interests of members by all lawful means and in particular:

- i. To support and take part in research and all forms of technical development and to recommend the best methods of design and installation to the construction industry.
- ii. To promote standardisation through the British Standards Institution or similar appropriate bodies, and improve quality through the application of all current and relevant quality standards.
- iii. To co-operate with and advise the Highways Agency, Public Authorities, private sector bodies and persons responsible for setting standards related to post-tensioning.
- iv. To collect and maintain statistics and information useful for the efficiency and development of the Association.
- v. To do all such things as are incidental or conducive to the attainment of the above objectives, provided that the Association shall not require or recommend the observance of any restriction, or act in any other way which would make this agreement registerable under the Restrictive Trade Practices Acts and The Bribery Act 2010.
- vi. To encourage the growth of the Association by inviting companies to join, in accordance with the rules for joining in the constitution.
- vii. Promote best practice in post-tensioning design and installation for quality, health and safety, and the environment.
